2013 CONTRIBUTIONS STATEMENT

In an effort to insure that you receive your Tax Statement, our New Birth Lithonia Finance Team is requesting that all members pull their 2013 Tithes & Offerings Statement from Fellowship One. This is a program that incorporates your information for easy access. We are switching to this format because when mailing the statements, we receive a significant number of returned mailings due to members changing their addresses and not making the updates on their church records. Please make sure that you keep updated information on file with Member Services (i.e. mailing address, phone numbers and e-mail addresses) whenever you make any changes.

Below gives a snapshot with the information needed for you to create an account on the Fellowship One System only if you don't have one already. If you have an account, you do not need to create another account.
